Objective

To work with industries and institutions that develop innovative systems and technologies that will enable me to deepen my knowledge, improve my skills, and further my growth as an Electronics Engineer.

Education

BS Electronics Engineering
Ateneo de Manila University
(2014 - 2019)

Dean's List

Achievements

- Finalist, Ateneo Blue Legacy 2019
- PRC Licensed Engineer

Technical Proficiency

Programming Languages

- C++
- JavaScript

Engineering

- Arduino
- Matlab
- Processing

Conferences and Seminar

Accenture Student Leadership Conference 2019

Accenture

- An event where students from various schools were tasked to create and pitch a solution to a problem. In addition, students were also exposed to various activities that helped improve leadership qualities.

UPSCALE Design Challenge 2019

University of the Philippines

- An event where students were tasked to create and pitch a start-up idea to a problem they want to solve.

Viewpoints TEDxADMU 2017

Ateneo Junior Marketing Association

- An event where various topics about social issues, business, and engineering were discussed by distinguished speakers from their own fields.

Work-related Experience

Shell Eco-Marathon 2017

Body and Chassis Design Officer (S.Y. 2016-2017)

- Designed the body and chassis of the first ever electric car using SOLIDWORKS for the school that was used for the Shell Eco-Marathon competition back in 2017.

Meralco Philippines

Telecommunications Intern (June 2017 - July 2018)

- Created real-life fiber optic cable routes using AutoCAD to be used by Meralco and was exposed to the telecommunications industry.

Extra-Curricular Activities

Barefoot Ateneo

Community Relations Officer (2017-2018)

- Communicated, researched problems, and found solutions to the problems of the two indigenous communities that the organization handles and helps.

Ateneo Rowing Team

Athlete (2015-2016)

- Competed in the Varsity Boat Race 2016, which was held in Putrajaya Sports Complex in Malaysia.

Ateneo Blue Repertory

Documentation and Publication (2017-2018)

- Documented the theatrical plays that the organization shows over the year through taking photos and videos.

Ateneo Electronics and Computer Engineering Society

Photo Ops (2017-2018)

- Documented the events that happened within the organization over the year through taking photos and videos.

Youth-for-Christ Ateneo

Finance Lead (2016-2017)

- Handled the money going in and out of the organization, and kept in touch with the Office for Student Activities for getting money for the events of the organization.
