PROFILE

A lawyer changing careers to Software Engineering.
Why am I transitioning? My coding journey started with a spark of curiosity.

Curiosity grew into my passion to keep learning and growing my skills in software development and cyber security.

Convinced that this was the best skill set I should have in order to contribute to the solutions needed in Uganda and the world today, I committed myself to learning quickly and preparing myself for a career in the tech industry.

EDUCATION

Bachelor of Laws (LLB)   Aug 2017
University of London, London
The Bachelor of Laws degree is an internationally recognized award that you can study flexibly, anywhere in the world with the University of London online.

Certificate in Software Engineering with Javascript   Sep 2022 - Nov 2022
Refactory Uganda, Kampala
A 12 week Software Engineering course that covers everything from the fundamentals of JavaScript programming, how to use essential frameworks and libraries such as Node.JS to develop a modern back-end web application.

Software and Business Development   Feb 2023 - Jul 2023
Refactory Uganda, Kampala
Over the course of six months, the selected students will undergo in-depth training in the areas of software development and project management in order to produce a minimum viable ICT solution for an actual challenge in an industry of their choice.

I consent to the processing of my personal data for the purpose of recruitment for the position to which I am applying.

EMPLOYMENT

Legal Associate   Mar 2018 - Mar 2020
Law and Advocacy for Women in Uganda, Kampala
After completion of my Bachelors of Laws degree I had the opportunity
to work as a Legal Associate at this Non–Governmental Organization
that advocates for women and girl child rights in Uganda.

COURSES

Complete Web Developer 2023   Sep 2022
Certificate of Completion for Complete Web Developer in 2020 Zero to
Mastery

CERTIFICATES

International Computer Driving License   Dec 2017
Certificate of Microsoft Office tools and technologies
