EDUCATION

Bachelor of Computer Science Honours (Co-op)   SEP 20 - SEP 25

University of Manitoba

International Undergraduate Student Scholarship Award   SEP 22 - SEP 21

Enrolled in: Software Engineering & Professional Practices in Computer Science

PERSONAL PROJECTS

Hair Appointment Booking app   DEC 23 - PRESENT

- Currently working on building the front-end of an appointment booking app using **JavaScript** on **React-native** & the back-end is handled by **Firebase.** The primary focus is on creating an intuitive interface that simplifies the process of scheduling appointments.

Assemble Online Study Tool   MAY 24 - PRESENT

- Building a study tool app for a Software engineering course with a team of 5 developers. The Study tool consists of a to-do list, a timer and a notepad. It is built using **Java, XML & HSQL.**

Fat32 Drive Reader   MAR 24 - APR 24

- The FAT32 Drive Reader is a command-line tool developed in **C** that allows users to read and navigate the contents of FAT32 file systems. This project demonstrates the ability to work with low-level file system structures & the **lldb debugger**.

TECHNICAL SKILLS

- Programming languages: Java, JavaScript, SQL, C & C++.
- Frameworks: Express.js, React Native, Firebase.
- Tools: Git, Node.js & Visual Studio Code.

WORK EXPERIENCE

Product Knowledge Specialist, Skechers   JUN 23 - PRESENT

- Successfully resolved customer complaints and issues, by effective communication.
- Exceeded sale goals for a slip-in shoe by teaching my team a sales technique that they can use, whenever they are helping a customer.

Customer service, Real Canadian Superstore   OCT 22 - NOV 22

- Received commendations and positive feedback from customers, highlighting exceptional service and assistance in meeting their needs.

EXTRACURRICULAR ACTIVITIES

- Participant of Google Student Dev Club   MAY 24 - MAY 24
  - Built an LLM and RAG-based chat application using AlloyDB AI & LangChain.
- Participant in Hackathon hosted by webdev University of Manitoba   FEB 23 - FEB 23
  - Developed the back-end of a banking software as a team of 4 students.
- Member of the .devClub   SEP 21 - PRESENT
- Member of the Computer Science Students Association   SEP 21 - PRESENT
